Trailer purchase

- Met with the school district - able to use the F250 pick up truck if capable of pulling the 10,000 pound gross vehicle weight. It was confirmed. Neil went to TP Trailers in Limerick and Cargo trailer sales in Lansdale and requested quotes for a 24' enclosed cargo trailer with additional height and additional options that might be beneficial for the items we load. Need a more itemized estimate so we can possibly choose the options. One was \$16,000+ and the other was \$18,000+. Some differences in

warranties. Neil will get it detailed out and present it to the General Assembly meeting. Most likely in March.

- Will talk about the graphics on the trailer.
